AFTERNOON EDITION

Volume XXIX—No. 8.

MAYSVILLE, KENTUCKY, SATURDAY, JUNE 18, 1921.

ONE COPY—TWO CENTS

NEXT THURSDAY IS CIRCUS DAY IN MAYSVILLE

Gentry Bros. Shows Has All the Old Features Dear to the Kiddies and Many Added Attractions.

Forocious animals and charming girls, jungle kings and harnayr pets are curiously intermingled in the performance of the Gentry Bros. Show and wild animal circus, which exhibits in Maysville on June 23rd, and which will, no doubt, provide a jolly joyous jingling holiday for the folks for 50 miles around.

A mile long street parade starts the day's circus festivities at noon, in which hundreds of animals, both wild and domestic appear, along with four hands and two calliopes, also many red and gold vehicles; the parade is scheduled to appear in the business section at 12 o'clock, and is reported as worth going many miles to see.

The first exhibition in the big top starts at 2 o'clock, and from the opening strains of the grand march to the closing notes of the exit music, all is action in the air, in the rings and on the track, with a coterie of clowns and many human and animal performers.

The Gentry Show which for 30 years has been known as the "children's show," has of later years been greatly enlarged, retaining the peculiar features that endeared it to the hearts of the young, and adding all the newest ideas in circusdom, so that now the children take father and mother instead of the folks taking the youngsters, as of yore; there will also be a complete night show commencing at 8 o'clock.

PASTIME PROGRAM NEXT WEEK.

Monday, Eddie Polo in second episode of "King of the Circus," serial. Kentucky Derby won by "Behave Yourself" See this in News today. Also "All Wrong" comedy.

Thursday, Harry Carey and Carol Holloway in "If Only Jim," western.

Friday, Joe Ryan in "The Purple Riders," serial. "Last Resort," and Nick Carter.

Saturday, "Closed Clues," western; "Simple and Sweet," and "Seeing Is Believing," comedies.

STATE AWARDS CONTRACTS COVERING U. S. ROAD AID

Contracts Already Awarded To Cover All Available Federal Aid July 1st.

Frankfort, Ky., June 18. — All federal aid for highways available up to July 1 has been contracted for by the State Highway Commission. It is announced.

Contracts awarded recently and forwarded to Washington for signature bring the total federal aid obtained by Kentucky in contracts under way or completed up to \$6,800,000. The total for this year is \$1,850,000 and \$1,953,000 is available up to July 1, 1922.

Three state highway contracts were let Thursday. One was 2.5 miles of penetrating asphalt on the Manring road from Middleboro to the Tennessee state line. The Cordele-Byers Construction Company, Winchester, gets the contract for \$81,354.29. Bell county appropriated \$37,000 toward it.

The last half mile linking Covington with Latonia will be of Kentucky rock asphalt with concrete base, the contract being let to Metzger and O'Hearn, Covington, for \$25,764.

The commission let 4.3 miles of grading and drainage on the Hartford-Owensboro pike, Ohio county to Costello Brothers and Mays, Knoxville, for \$50,206.07, toward which Ohio county contributes \$20,000.

Completion of a \$70,000 bridge over Rockcastle River between Rockcastle and Laurel counties was provided for in a contract let to George M. Lachy and the Louisville Bridge & Iron Company. Two bridges over Williams Creek and Eastford, on the Midland Trail, Boyd county, costing \$26,000 were let to the Vincennes Bridge Company.

RECEPTION OF K. T. NEXT THURSDAY.

The reception and dance to be given by Maysville Commandery, No. 10, Knights Templar in honor of Eminent Sir S. P. Browning, Grand Commander of the Grand Commandery of Kentucky, will be given at the Masonic Temple on next Thursday evening, June 23rd.

SAPIRO AT LEXINGTON SATURDAY.

Aaron Sapiro, the originator of the proposed co-operative tobacco marketing plan, speaks at Lexington Saturday afternoon explaining the plan to the tobacco growers of the Bluegrass section.

HEARING OF SOFT DRINK SALOONISTS WILL BE TUESDAY

George and Arthur Dale Charged With Having Liquors for the Purpose of Sale—Warrants Issued After Investigations.

Because of the absence of important witnesses, the examination of George and Arthur Dale, Market street soft drink saloon proprietors, was continued Saturday afternoon in City Court until next Tuesday afternoon.

The Dale brothers were arrested late Friday on charges of having liquor in their possession for the purpose of sale as the outcome of an investigation by Chief of Police Harry A. Ort into a case of drunkenness.

Charles Rye, of Murphysville, and William Brown, colored, who worked as porter at the Dale place, are the two men questioned by the police. They gave affidavits upon which the Police Chief based the issuance of the warrants. Rye claims to have purchased a pint of white liquor at the Dale place several days ago. He says in his affidavit that he drove up in front of the Dale place and asked the colored boy, Brown, to hold his horse. Brown then asked what he was looking for and Rye told him liquor. Thereupon, Brown got for Rye a pint of white liquor which was sitting on a back stairway. The colored boy says he turned the money over to Arthur Dale. Both affidavits seem to corroborate each other.

Others have been examined by Chief Ort in regard to the case but no further evidence has been obtained by the police thus far.

ARTIFICIAL WAVE IN OHIO RIVER MONDAY.

The first artificial wave of the year will be created by Government engineers on the Ohio River, next Monday, and about 50,000 tons of coal will be floated down upon its crest. The wave is made necessary by the extremely low stage of the river. The pools locked above the dams in the upper Ohio River will be allowed to rush out, forming the wave upon which nine steamboats with 100 to 125 barges of coal will float down the stream to Cincinnati and Louisville. All of the river coal companies at Cincinnati will have shipments on the wave. It is expected that other waves will follow this one unless the river rises.

"BOOTLEGGER'S UNION" AT WORK IN KENTUCKY.

Louisville, Ky., June 18. — Theft of nearly a thousand cases of whiskey from warehouses in Kentucky in the past two weeks brings to light the operations of a "bootleggers union," which has arranged the thefts and then sold the whiskey, according to Federal officials here.

That Federal officials are trying every means to eliminate the "union," which is said to have wide ramifications, was made known Saturday by Robert Lucas, internal revenue collector, who says the organization is undoubtedly ironclad and has a skillful leader.

MORROW ADMITS HE MADE MISTAKE.

Frankfort, Ky., June 18. — "I made a mistake and am sorry," says Gov. Edwin P. Morrow, in one of the most unprecedented frank and honest statements ever issued from a governor's office.

The Governor admitted his error in commuting the sentence of Frank Blair, who assaulted and robbed Capt. Jim Hendricks, of Louisville, in a room over Hendricks' chile parlor in July, 1919, and also was wanted for theft of U. S. Government property.

BUST OF HARDING UNVEILED TODAY.

Niles, Ohio, June 18. — Vice President Coolidge, Governor Davis of Ohio and other prominent persons are here today to participate in the unveiling of a bronze bust of President Warren G. Harding in the Court of Honor at the McKinley memorial. The bust, the work of J. Massey Rhind, will be placed beside those of former Presidents Roosevelt and Taft.

MILLION AND A HALF LOST IN POOR EGGS

Farmers in Kentucky Lost a Million and a Half in Handling Eggs Last Year.

Kentucky farmers lost approximately \$1,500,000 on eggs last year which spoiled or were graded below "firsts" when placed on the market, according to poultrymen from the College of Agriculture. Five factors contributed toward the loss. These were: roosters running in the laying flock, keeping eggs in warm places, damp, dirty nests, leaving eggs in the nest too long and holding eggs at home too long.

According to specialists the losses can be prevented this year if farmers will keep eggs in cool places, provide one good clean nest for every five hens, gather eggs twice daily, market eggs when they are fresh and kill, confine or sell all roosters.

Gathering the eggs twice each day and keeping them in a cool place will prevent many of them from spoiling, according to experiments which show that more than 97 per cent. of the eggs which are handled in this way grade as "firsts" when placed on the market. Gathering the eggs twice each day during the hot summer months also will tend to eliminate broken, shrunken and badly flavored eggs. If the eggs are placed in a cave care should be taken to keep them away from onions or any other object that might cause the eggs to absorb odors. They also should be placed on a table or box to allow free circulation of air about them. Eggs should be taken to market as often as possible as delay in marketing encourages deterioration.

ATTORNEY FINED FOR OVERCHARGING CLIENT.

Leonidas R. Diggs, negro, attorney of Franklin county, was found guilty of making his charges excessive in handling legal matters for a pension applicant and was fined \$100 by Federal Judge A. M. J. Cochran Friday afternoon.

A jury which tried the case returned a verdict of guilty following which Judge Cochran ordered the fine to be entered. Diggs was charged in the indictment with having charged an undue woman who was applying for a pension on the grounds that her husband had been a soldier more than allowed by law.

KNIGHTS OF COLUMBUS PLANNING BIG PICNIC AT THE PARK

Maysville Council Will Give Great Picnic and Outing Which Will Be Attended by Hundreds Thursday, June 20.

One of the greatest outings and picnics in the history of Masonry county is being planned by the Maysville Council Knights of Columbus to be held at Beechwood Park on Thursday, June 20th.

Tickets are now being sold by members of the order by the scores and hundreds of people are expected to spend the day in Maysville on that day. The picnic will draw people from all over Mason and adjoining counties and from various parts of the state.

The committee on entertainment announces that they have agreed upon a program of games, contests, etc., that will keep the visitors entertained throughout the entire day and at night there will be a great ball in the Casino at the park which promises to be one of the greatest events of the entire year. There will be all kinds of refreshments and music will be furnished by several musical organizations.

Large posters advertising the picnic are now being posted in all parts of this section and great interest in the event is being displayed by members of the order and their friends.

It is expected that this will be the biggest event of the kind ever held in Mason county. The profits from the day will be placed in the building fund to help purchase a suitable home for the local council.

DIES AT STATE HOSPITAL.

The body of Mrs. Susan Candell, aged 67, who died at the Eastern State Hospital at Lexington, arrived here Friday night and was taken to the home of Mrs. Sadie Gilbert in Short street from which place the funeral will be held Sunday afternoon at 2 o'clock. The burial will be made in the Maysville cemetery. Mrs. Candell's death was caused by pneumonia.

MISS DERRY'S RECITAL.

The music pupils of Miss Lida Berry gave their annual recital at the Knights of St. John's hall Friday evening before a good sized audience. All of the pupils acquitted themselves well reflecting much credit upon their accomplished instructor, who enjoys a most enviable reputation as a music instructor.

STATE LIQUOR TAX IS FINALLY KILLED

Court of Appeals Decides Vance Act Is Unconstitutional—Roads Are Losers.

Frankfort, Ky., June 18. — The Vance, 50-cent whisky tax was declared unconstitutional by the Court of Appeals Friday in an opinion by Judge Houston Quinn on the same grounds that the United States Supreme Court held it invalid.

It is a property and not an occupational tax, and, therefore, discriminates against the owners of whisky as compared to owners of other kinds of personal property.

The statute declares it to be a tax on the manufacturer, ownership, storage and removal of whisky, but the court said the incidents of the law's operations, not the name, determine the character of the tax and the tax and the tax accrues on removal.

While the decision of the Court of Appeals is controlling, Judge Quinn referred to the views of twelve judges, two of the Federal District branch, one of a Kentucky Circuit Court, and the nine Supreme Court Justices, as persuasive in reaching the conclusion.

The opinion was handed down in the case of State Auditor John J. Craig against E. H. Taylor, Jr., Sons & Company, appealed from the Franklin Circuit Court.

The Vance Act would have netted the road fund between \$15,000,000 and \$20,000,000. The failure of this Act restores the tax of 2 cents the gallon, abrogated by it.

JUDGE DENIES NEW TRIAL AND SENTENCES THREKELD.

Nicholasville, Ky., June 17. — Prof. T. B. Threkeld was sentenced for life in Frankfort Penitentiary Friday afternoon by Circuit Judge W. R. Shackelford after overruling motion for new trial. Professor Threkeld killed Arthur C. Denma, Nicholasville merchant, in his store last October. The tragedy occurred over sale of football tickets by pupils of Threkeld Select School.

He was found guilty by a Mercer county jury at the second trial.

EASTERN STAR HOLDS GREAT MEETING.

The Maysville Chapter Order of the Eastern Star held a great meeting Friday at Beechwood Park and last night conferred the various degrees upon several candidates at the Masonic Temple before a very large assemblage of representatives from several different chapters throughout this section of the state.

CHRISTIAN CHURCH IS PLANNING FOR A GREAT HOME-COMING

Great Re-Union of Former Members and Old Friends of Maysville Christian Church Planned for Sunday, June 20.

Pastor Mullen and a special committee is making arrangements for a great home-coming meeting at the Christian church on Sunday, June 20, at which time members of the church in all parts of this section are expected and letters from members at a distance and former pastors will be read to the congregation.

The celebration will be an all-day affair with several addresses by prominent men. Dr. George N. Snively, of Illinois, Christian church evangelist, will deliver one of the addresses and an effort is being made to procure a man of state and nation wide reputation to make the afternoon address at which time the other churches of the city will join in the celebration.

The evening service will be another big feast of good things and several members of the congregation will speak.

Every member of the local Christian church is urged to make no engagements that will conflict with their enjoying this all-day service. Full particulars will be announced as soon as the program is completed.

TOO YOUNG.

An Ohio couple applied to County Clerk Owens this morning for a marriage license but as the bride-to-be was but 18 years of age and did not have the written consent of her parents, Mr. Owens was compelled to refuse them license. He explained that 21 was the legal age in Kentucky and that he was not permitted to issue marriage license to anyone under that age without the written consent of the parents. The couple left the Clerk's office down-hearted and probably sought license in a nearby Ohio county seat.

TEACHERS' EXAMS CONTINUED.

The last examination for city and county teachers in Mason county for this school year is being held Saturday. Several teachers took the prescribed tests Friday. The examination papers will be graded by state school authorities at Frankfort and the results announced from the office of the State Superintendent of Public Instruction.

PRESIDENT SAMUEL'S ADDRESS BEFORE CLASS OF 1921
 President of City School Board Makes Address Before Last Graduating Class Before Retirement.

Dr. J. H. Samuel retires this year as president of the City Board of Education and in his address to the class of 1921 at the commencement exercises Thursday evening he said in part: My Friends:—On behalf of the graduating class, the corps of teachers and the Board of Education, I desire to thank you for your presence here this evening. I observed with a great deal of pleasure your facial expression during the exercises clearly demonstrating your hearty acceptance of their youthful ideals, aspirations and ambitions.

Every citizen of Maysville should have a just pride in our school system as it exists at the present time for I assure you there is none better in any city of our class in the Southland.

As the personnel of the present Board of Education will cease to function long before there is another commencement, I know of no better time to say that we have done our very best for the promotion and betterment of the school system; loyally aided and supported by the superintendent and the entire teaching force.

In this building there has been installed a water filtering system that is the very last effect in efficiency—being a duplicate of the one used by the Rockefeller Institute for medical research and for scientific experimentation. In this auditorium we have a picture machine for visual training with every needed accessory. I want to say to the persons that the possibilities for good down this line of educational training are so far reaching that even the most sanguine advocates hesitate to forecast the priceless educational results upon the minds of the student body. In point of fact the entire structure of the curriculum is such that no student has the least excuse for going from here unprepared for his life work.

These improvements have been promptly paid for because this Board has guarded and protected the financial interests of this institution in a manner that should call for approval of this entire community. It is a fact that more than one city of Kentucky has during the present school year been on the eve of closing their doors for lack of funds. This Board does not owe a single dollar; neither has it gone beyond the estimated budget. I assure you that the administration is exceedingly proud of its financial record.

There can be no progress, no achievement without sacrifice, and a man's worldly success will be in the measure that he sacrifices his confused animal thoughts, and fixes his mind on the development of his plans, and the strengthening of his resolutions and self-reliance. And the higher he lifts his thoughts, the more manly, upright, and righteous he becomes, the greater will be his success, the more blessed and enduring will be his achievements. All the great teachers have declared in varying forms that the universe does not favor the greedy, the dishonest, the vicious, although on the surface it may sometimes appear to do so; it helps the honest, the magnanimous, a form of syphilis.

the noble. Intellectual achievements are the result of thought consecrated to the search for knowledge, or for the beautiful and true in life and nature; such achievements are the natural outgrowth of long and arduous effort, and of unselfish thoughts.

Achievement, of whatever kind, is the crown of effort, the diadem of thought. By the aid of self-control, resolution, purity, righteousness, and well-directed thought a man ascends; but by the aid of animality, indolence, impurity, corruption, and confusion of thought a man descends.

All achievements, whether in the business, intellectual or spiritual world, are the result of definitely directed thought, are governed by the same law and are of the same method; the only difference lies in the object of attainment. He who would accomplish little must sacrifice little; he who would accomplish much must sacrifice much; he who would attain highly must sacrifice greatly.

Class of 1921 you will soon be presented with this city's stamp of approval certifying that you have completed your first great undertaking after four years of intensive study. You have achieved the crown of all honors, a triumph the greatest general may envy; for, it is a nobler thing to remove the barriers of the intellectual life than to extend the boundaries of an empire. To the young ladies, I wish to say that as horizons lift and new destinies confront us woman is going to perform an ever increasing public service to society. Since the foundation of the world, man has had nearly all the forces on his side, working with him and for him; his interest has been abated; he has had the run of the world and all quickening and brightening things while she has sat in the clinders and, until lately, been illumined only by his reflected light. Thanks to an enlightened electorate the women of our nation have come into their very own, and young ladies, you are coming upon the stage of life as principal actors, and as the economic and moral questions arise may you be prepared, as a result of your training, to meet them confidently and efficiently. Our grand business is, not to see what lies dimly at a distance, but to do what clearly lies at hand, for there is a great big tomorrow that is coming, and to be ready for it we must meet today's need, for

On the road we all travel There's many a stream. Or gulf to be spanned— Then the best thing I mean Is to build stalwart bridges With concrete of Love, And girders of Friendship. That time may so prove. Though the gulf or the stream Be as wide as they please, Love and Friendship will help us To span them with ease.

Now my young friends by the authority vested in me as President of the Board of Education it gives me great pleasure to present you with your deservedly won diplomas. I desire to impress upon you the fact that this is just your commencement day. Study always to improve yourself as the years pass by. And may you so act and live that you will bring nothing but honor and distinction to your Alma Mater and to the city that is now sending you forth with its richest blessings; and may the great Eternal Force, to whom all things are as they seem, be your future guide and protector.

Many lives and much property are lost every year because of accidents due to venereal diseases, says the U. S. Public Health Service. So great in fact are these losses that the National Safety Council has issued a bulletin on them. For instance, four serious recent railway wrecks were traced to employees who failed because they were suffering from paresis, which is helps the honest, the magnanimous, a form of syphilis.

\$100,000 SAVED FOR ROAD FUND: CLERKS' INCOME CUT
 Appeals Court Decides County Clerks Are Not Entitled To Auto License Fees—Injunction Dissolved.

Frankfort, Ky.—The state road fund was saved approximately \$100,000 by the decision of Chief Justice Rollin Hurt in the Court of Appeals, dissolving an injunction obtained by two County Clerks which would have permitted them to withhold 5 per cent. commissions out of automobile license taxes for collecting them.

Under a general license law County Clerks are allowed five per cent. for collecting and reporting monthly to the State Auditor. By the motor vehicle act of 1920 they are required to issue motor licenses and they receive 30 cents in fees from each applicant, besides fees ranging from 40 cents to \$1 for transfers, duplicating lost licenses, issuing duplicate plates, issuing chauffeurs' licenses and various other duties. The Clerks contended they were also entitled to ten statutory commission of five per cent.

They did not report these with other licenses to the Auditor, but to the State Tax Commission, and Justice Hurt said there is no consistency between the provisions of the general license law, which specifies the duties for which five per cent. commissions are allowed, and the motor vehicle act, which purports to be a complete law in itself. He said that the 1920 General Assembly intended the stipulated fees to cover all the clerks' compensation and that the general license law related to particular duties enumerated in its are equally evident. The 1920 act requires the clerks to turn over to the Tax Commission all motor license revenues collected, he said.

County Clerks J. H. Nash, Franklin, and S. H. Lewis, Fayette, obtained injunctions in the Franklin Circuit Court, restraining Henry E. James, State Inspector and Examiner, from interfering with their retention of 5 per cent. commissions on motor licenses, and raised the issue as to whether the year entitled to the additional compensation.

Typhoid fever was spread in South Carolina by undisciplined workmen and camp followers of the army in 1918. Since then the state authorities have reduced the disease 40 to 50 per cent. in certain counties by mere sanitary education, says the U. S. Public Health Service. If there, why not elsewhere?

On the road we all travel There's many a stream. Or gulf to be spanned— Then the best thing I mean Is to build stalwart bridges With concrete of Love, And girders of Friendship. That time may so prove. Though the gulf or the stream Be as wide as they please, Love and Friendship will help us To span them with ease.

IN BED EIGHT MONTHS

Cause—Change of Life. How Lydia E. Pinkham's Vegetable Compound Got Me Up

Afton, Tenn.—"I want other suffering women to know what Lydia E. Pinkham's Vegetable Compound has done for me. During the Change of Life I was in bed for eight months and had two good doctors treating me but they did me no good. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, which I did, and in a short time I felt better. I had all kinds of bad spells, but they all left me. Now when I feel weak and nervous I take the Vegetable Compound and it always does me good. I wish all women would try it during the Change of Life for I know it will do them good. If you think it will induce some one to try the Vegetable Compound you may publish this letter."

NEW YORK LUMBER CUT DOUBLED IN VALUE

Report of Forest Service Shows That Lumber Production in New York Has Greatly Increased.

New York cut 411,000,000 feet of lumber in 1920, valued at \$20,000,000, or nearly double the value of the 1918 cut. This remarkable increase was due primarily to the great post-war increase in lumber prices, which reached its peak in March, 1920 together with the fact that the quantity of lumber sawed increased 25 per cent. in two years. The number of mills cutting 50,000 feet or more increased from 1,223 to 1,266 in the same period. The average valuation of a b. m. of the lumber cut was \$48 per M feet—the highest point on record.

This is a preliminary statement of the Forest Service, United States Department of Agriculture, cooperating with the Bureau of the Census, United States Department of Commerce, and with the State of New York, in the census of lumber production in 1920. Hemlock retains first place in quantity,

lily, closely followed by maple. Both hemlock and spruce lumber were less in quantity than in 1919, the decrease in spruce being probably due to the demands of the pulp mills for this species. The only continuous increases for the two-year period are shown by maple, beech, birch and chestnut, though more white pine and oak were cut in 1920 than in either previous year.

Hemlock and beech are the only species reported at less than \$40 per M and ash is, as usual, the most costly native wood at \$57.74 per M. Although the peak of lumber prices was reached during the forepart of 1920, the average valuation of lumber in New York increased 15 per cent. more in 1919 than in 1920. This was due to the fact that prices were sustained at an increasingly high level throughout 1919, while in the latter part of 1920 they fell far below the peak.

New York Letter

New York. — July Fourth promises to be imbued with some floating bits of excitement in spite of the restrictions for the preservation of safety and sanity. On top of the news of the anti-prohibition parade, announced to have 150,000 entrants to date, comes word of a rival procession to counteract its propaganda. The "White Doves," says the Dips, will parade at the same day and hour in favor of the amendment, the Volstead act, and all that goes with it—except the bootleggers. "Very well," is the reply. "Bo doves as white as you please. We hereby become the 'Blue Birds'—and we are insisting upon recovering our happiness. Besides our parade will be perfectly law-abiding and no one can interfere with it. We've even promised not to let our banners say what we really think of things."

—NY—
There would seem to be an ironic quip to poetic justice in the drive carried on by the Soldiers of Foreign Wars to assist needy ex-service men.

For they have named it "Red Tape Week" and are raising the money by selling strips of actual red tape at \$1 a foot. Two hundred thousand feet sold at that price is their aim.

—NY—
Somers Point, a heretofore rather quiet neighbor of Atlantic City, has started out to win New York's trippers completely away from the resort of the Board Walk. "They are going to spell it 'Dored' this summer," says Somers Point, "with the bathing costume decrees published to the world. Come to Somers Point and dress as you please—within reason. And our reasoning processes are broad." None other than Mayor Albert Crissey himself, has issued the pronouncement. "We agree completely with Miss Ada Taylor, swimming club president and Sunday school teacher" he says "that stockings worn by women swimmers are only a nuisance, and as for Annette Kellerman suits—they're sensible and entirely satisfactory to us. We've had 'em about for years and our

city's morals haven't yet been corrupted."

—NY—
There are still some swimmers who aren't worried by the agitation pro and con bathing suit fashions. New York has gone into the business of developing "champions" at an age when such things needn't creep their style. For instance there is Francis Brown, four-year-old champion swimmer of the city, who was one of the features of the "Splash week" carnival and—still more—there is Lillian Derick, "champion eighteen months-old swimmer" of this amazing land and epoch.

The teachers and trustees of the Institute of Musical Art showed a good deal of moral courage and of sportsmanship the other evening they wout.

with a brave smile on their lips, to see one part of their students' commencement celebration, entitled descriptively "Say It With Jazz." It was a travesty of music in general and nothing in the whole domain of their chosen art was untouched by flippancy and burlesque before the evening was over. The most revered symphonies were jazzed and "The Chorus Girl Blues" was done to what in its original form was an air from a Russian opera. Dr. Frank Damrosch, himself, nobly shook hands with the "Interpreters" at the close of the performance.

The story of a Greenwich Village artist who died the other day will be a joy to the psycho-analysts. They're probably glad he died just to get it. He was always called "Thamos," the artist, and the Village that sometimes is the turbulent center of followers of the arts and the near-arts, knew little about him except that he HATED poetry and well-nigh hated every poet. According to current gossip, the Village has been trying to find out why for nearly three score years. After his death, just the other day, some one found a diary in his attic, and these words at the end told the story. (Remember this is true. I didn't make it and it isn't a rumor.) "I have a presentiment I shall not live long. If any one finds this, let him read this, my confession, the confession of a fool. I hate poets. Why? Day in and day out, snapper in and snapper out, my father would always recite the same bit of poetry. I, who might have acquired a deep love for it, am a hater of verse; all for: 'Ye gods and little fishes! Tommy has to wash the dishes.' That's the tragedy and the farce of my life."

WATER PURIFICATION FOR TOWN OF DRIVERS

Uncle Sam Is Purifying River Water In Town Where Model Hospital Is Located.

The method by which Uncle Sam, acting through the U. S. Public Health Service, purifies the drinking water for his model hospital village and reservation at Perryville, Md., though not altogether new, carries some interesting lessons for the country at large and particularly for towns situated along tidal rivers.

The raw water, which is pumped from the Susquehanna River through thirty-inch mains to settling tanks, is subject to rapid changes in turbidity ranging from ten to 100 parts per million; and the amount of aluminum sulphate to be added as a coagulant and precipitant must be varied to suit. Samples of the water entering the mains are taken every two hours; and the amount of coagulant to be added is determined by the chart based on the amount of water and its turbidity; for instance 0.4 grain of the alum is added for ten parts per million of turbidity. This amount, however, is also governed by the alkalinity, which may vary greatly during the day; when it drops below 14 parts per million, soda ash is added.

Two hours are allowed for settlement in the tanks, after which the water flows by gravity through mechanical rapid sand filters, passing through three feet of sand and eight inches of stone and gravel at the rate of two inches in 55 seconds. Later, the water is treated with liquid chlorine, the amount depending on bacteriological examination of the ray and the chlorinated water. This treatment reduces the bacteria from an average of 2,630 (maximum 7,860) per cubic centimeter to less than one.

The condition of the water at Perryville is affected by the geological formation of the country, by the daily conflict of the tide and the river current, and by the strong winds which often cause terrific wind action on the low flats, all of which necessitate very effective treatment.

HARVEST HELP REPORTED ABUNDANT IN WHEAT BELT

No Shortage of Labor In the Great Wheat Belt of the West Reports From Department Say.

Advises received by the Department of Agriculture from its agents in the field indicate that there will be no general shortage of labor for the wheat harvest and that in some areas there will be a decided surplus.

In Kansas, where the harvest begins about June 15 in the southern tier of counties, the supply of labor is already in excess of the demand. In that state wages for shockers do not run over \$3 a day with board and lodging.

In Texas where harvest is already in progress there seems to be labor sufficient to meet all demands, with the possible exception of the "Panhandle" district. In Texas harvest wages run from \$2 to \$2.50 a day.

In the northern wheat states the situation has not yet developed sufficiently to make possible reliable estimates as to demands for outside labor, but

It seems probable that the labor market will be comparatively easy in most localities, with the prevailing wage not over \$3 a day.

Opinions have differed as to the fatigue-causing powers of different occupations; and many efforts have been made to establish a scale for definitely ranging them. A recent report of the U. S. Public Health Service states that the amount of sulphur excreted through the kidneys of men engaged in a wide range of work has been found to coincide very closely with the relative arduousness of the work, as estimated by four good observers.

"GAMBLERS MUST BE
DRIVEN FROM CAMPBELL."

Newport, Ky., June 18. — Judge Otto Wolff, of Campbell county circuit court, in charging the grand jury Friday gave specific instructions regarding the enforcement of the Kentucky laws against gambling. "Rumors of a renewal of gambling, immediately upon your adjournment lead me to speak upon this subject with you," he said.

Judge Wolff said gambling must be prevented and the gamblers driven out of Campbell county.

FALLIS WILL GIVE SELF UP TO SHERIFF

Frankfort Merchant, Who Shot Four,
Says He Will Surrender Only
To the Sheriff.

Frankfort, Ky., June 18. — John Fallis, merchant, who wounded four policemen and then escaped by penetrating a cordon thrown about his home here, wants to surrender—but only to Sheriff Bain Moore.

This message was given to Sheriff Moore yesterday by an unnamed Scott county man, who said he talked with Fallis Thursday.

"I will surrender to the Sheriff if a meeting can be arranged, but I will not go to Frankfort," Fallis is quoted as saying. "The sheriff will not shoot me but the others will. I'll die before I surrender to anyone else."

Sheriff Moore believes that Fallis will be traced today through his emissary. Several other persons talked with him in Scott county Thursday but Friday no trace of him could be found.

A detachment of officers went to Henry Falls, at Stamping Ground, Scott county, Friday, acting on the belief that he was a relative and might be hiding the fugitive. It was learned however, that he was not related to the Frankfort merchant.

According to the story Fallis told Willie Richardson, Duval Station agent, he escaped from his home by walking out the front door and mingling with the crowd that had congregated. He denied that he shot his son, insisting the boy was shot after his flight.

SUNDAY SCHOOL LESSON. JUNE 19, 1921.

Topic: "Making the Social Order Christian." Luke 4:16-21
Matthew 23:23-40.

REV. J. J. DICKEY.

"Christianity transforming the social order." Is another way of stating the topic. That there are many evils in the social order, goes without saying. Let us enumerate a few of them. Divorce, impurity, dance, gambling, immodest films, Sabbath desecration, excessive pleasure seeking, intoxicating drink, and many others.

It is evident that there is plenty of work for all who are concerned for the good of society. How can we best help in this work? As is the case in all Christian work, first get right yourself. This is indispensable. The unclean can never make others clean. We must be consistent if we expect to have any influence. We have not space to discuss the remedy for these separately, so must be general in our suggestions. First we must be convicted that the thing is evil either in its nature or in its tendency. A thorough study of the subject is important to qualify one to effect a reform.

Again reason is more effectual than denunciation. You must make the individual you wish to affect feel that your motives are benevolent, that you are acting the part of a friend. We are speaking now of individual work for individuals. Furnish the one in error with literature on the subject. There is an abundance of it on all of these evils, prepared by the ablest writers in the land. Hunt for it till you find it, then spend some of your own money to get it, though much of it can be had free.

There are organizations for the purpose of correcting most of the evils mentioned. You will do well to align yourself with them. Organization is necessary to accomplish great reforms. See what has been done in this way for the overthrow of the liquor traffic, duelling and other evils. The creation of sentiment against an evil is the first and all-important step. This is done by agitation. A word dropped produces thought, thought produced conviction, conviction leads to action.

Again one must believe that these evils can be eliminated. It will take time and patient effort, and we must be willing to make the effort, inspired by a sublime faith in final victory. We must always remember that God is on the throne of the universe, and that He is as much concerned about the people of this planet as any part of His dominions. We must rely upon His leadership and efficiency. The work is His. We are only helpers, but so much importance that God cannot succeed without our aid, at least He has never promised to do these things except through us. Without this faith in God we will fail; with it we are bound to succeed. While we naturally watch for results of our work, we must not be discouraged if we see none, but work on in faith. Knowing that our labor is not in vain in the Lord. A reviewing of the past history of civilization will reveal to us vast progress, all of which was achieved through long, untiring effort, under most discouraging circumstances, against stubborn and determined opposition, by men and women of faith. Put yourself in line with these heroes and heroines, and become an immortal. Your name may not be known on earth, but it will be on the honor roll of the skies, and read by all who are "washed in the blood of the Lamb." A life thus spent is not in vain. In helping God to work out His purposes we become a part of His government and will become inheritors of all things. These opportunities are open to all. God has a place and a work and a crown for you.

SEPARATE DRY UNIT FOR EACH STATE PLANNED.

Washington, June 18. — Creation of a separate and distinct prohibition enforcement unit in each state, with a State Director at its head, forms the basis of the reorganization of the Prohibition Enforcement Department worked out by Commissioner Blair of the Internal Revenue Bureau and Prohibition Commissioner Haynes. The present administrative districts, comprising several states, will be abolished.

The plan was placed before Chairman Penrose and Senator Watson, Republican, Indiana, of the Senate Finance Committee, who approved it and it will be put into force soon.

Mr. and Mrs. Claude Bently and family, Mrs. Chas. Tomlin and Mrs. Henry Honchins and son, all of Mt. Olivet, spent Thursday with Mrs. J. N. Roper and family.

Endorsed in Maysville by grateful friends and neighbors. Ask your neighbor.

Mrs. J. W. Ishmael, 225 East Fifth street, Maysville, says: "I had been a sufferer from kidney trouble for many years. I think I inherited it as my mother died of dropsy. My kidneys were in a weak condition and at times they acted too often. My back ached terribly and it broke my rest at night as the misery was still there. I had dizzy spells and could see flashes before my eyes and everything turned black before me. A friend told me about using Doan's Kidney Pills with benefit so I sent to Swift's Drug Store and got two boxes. After using them I got better and have felt like a different woman ever since. I can't recommend Doan's too highly."

Price 60 cents, at all dealers. Don't simply ask for a kidney remedy — get Doan's Kidney Pills — the same that Mrs. Ishmael had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.
